Web-based Payroll Services

Odyssey OneSource ensures the most important service for your employees are done correctly. Our payroll system is based on state-of-the-art technology, designed to make payroll tasks simple, easy and accurate. Additionally, our SaaS based solution offers an optional integrated time and attendance, a solution contained in a single database. From certified payrolls to job costing, combined with award-winning service, Odyssey's Payroll Services does everything you need accurately, reliably and expeditiously.

The Future of Payroll Outsourcing

SaaS (software-as-a-service) HR is the newest, best-of-breed technology that delivers end-to-end HR and talent management functionality with the highest levels of security. With our SaaS HR portal, your HR/payroll staff, managers, and administrators can complete daily employee administration tasks, manage personnel, and access custom reports in real time, from one central database. Managers and executives can review commonly requested reports and analyze workforce stats and trends, while employees can easily access payroll and benefits information on-demand.

Easy & Convenient

With a single click of a button, you can set up payroll alerts to ensure items that require future attention such as a new garnishment are addressed.

Odyssey's Payroll Services save time and ensure compliance by virtually eliminating the chance for manual errors.

Accurate

Calculations-As-You-Go allows you to immediately see what your statement will look like. With no pre-processing steps, pay statements are continually updated in real-time including taxes, percentage deductions, arrearages, general ledger, labor distribution and workers compensation.

Reliable

Gain peace of mind when it comes to processing your payroll. Odyssey's Built-In Test Environments (BITE) are provided to those who desire to have access to a testing environment to gain a comfort level with the system, know how particular scenarios can be handled, or want to test different options prior to implementing a new policy.

BITE will allow you to do so without actually processing or finalizing payroll, or affecting any payroll data, to ensure the system will calculate the way you want it to.
